

# North America's premier heavy-duty parts wholesale distributor

## Industry's Leading Drivetrain Experts

### Eaton Clutch and Cummins Flywheel Kit

Eaton Cummins  
Endurant™

# Simplify maintenance with our Endurant replacement clutch and flywheel kits

OEMs now recommend that an out-of-spec flywheel be replaced rather than machined due to the unique designs and tighter tolerances of flywheels in AMT drivelines. Eaton is now offering service kits which include an Advantage Automated clutch and a genuine Cummins Flywheel for the Endurant automated manual transmission.

#### Eaton Clutch Features

- 100% new components. No remanufactured or reused components
- Cushioned organic facings allow for smoother engagement, while the clutch bracket features a hardened steel pivot ring to better sustain loads throughout the life of clutch
- Larger spring fingers for better wear and superior performance
- The standard pre-damper eliminates idling rattle
- 3 year/unlimited mile warranty

#### Cummins Flywheel Features

- Leading flywheel assembly technology
- Built to leading industry quality and durability standards to ensure outstanding performance and maximum clutch and flywheel life
- 1 year/unlimited mile warranty (standard Cummins warranty)

#### Note: Flywheel machining is no longer recommended.

A machined flywheel put back into service may cause alignment issues, fault code generations, and the inability to complete a clutch calibration cycle.

OEMs recommend that the flywheel be intensively inspected every time a clutch is replaced: *a flywheel out of spec should be replaced rather than machined.*

Transmission	OEM	Engine	Clutch Only	Clutch and Flywheel
Endurant HD	PACCAR	Cummins X15	K-4488CL	K-4488FWCL *
	Navistar	Cummins X15	K-4488CL	K-4488FWCL *
	DTNA	Cummins X15	K-4494CL	K-4494FWCL **
		Cummins X12		
	Volvo	Cummins X15	K-4494CL	K-4494FWCL **

\* Includes Cummins flywheel part number 3693466  
\*\* Includes Cummins flywheel part number 5575105
