

# Antifreeze/Coolant

## Heavy Duty Nitrite-Free Extended Life Antifreeze/Coolant

is a premium quality Organic Acid Technology (OAT), ethylene glycol based fluid. Specially formulated with advanced additive technology, this product provides extended service maintenance protection in heavy duty applications without the addition of SCAs, and meets nitrite-free coolant requirements of many industry-leading OEMs.

- Approved for heavy and light duty engines
- No addition of SCAs required (1,000,000 mile/20,000 hour protection)
- Meets CAT EC-1 requirements
- Extended service life
- Free of phosphates, silicate, nitrites, amines and borates
- Excellent wet sleeve liner cavitation protection
- Maximum freeze and boilover protection
- Extended life corrosion protection
- High-quality defoamer system
- Compatible with all major American brands of coolants

## Low Silicate Antifreeze/Coolant

is a premium ethylene glycol based fluid specially formulated with industry-leading additives to provide optimum performance in all gasoline, and light and heavy duty diesel engines\*.

- Approved for use in gasoline and diesel engines
- Low silicate, all-purpose
- Phosphate-free formulation
- Aluminum corrosion protection
- Protects against corrosion
- Provides maximum freeze and boilover protection
- Designed for use in passenger cars, light duty and heavy duty vehicles\*
- High-quality defoamer system
- Compatible with all major American brands of conventional coolants

\* Conventional formulation can be used with the addition of SCA (Supplemental Coolant Additives) in heavy duty vehicles. Consult your vehicle's owner's manual for recommendations.

## Heavy Duty Pre-Charged Antifreeze/Coolant

is a premium quality, conventional technology ethylene glycol-based fluid. It's specially formulated with industry-leading additives to provide optimum performance in heavy duty vehicles requiring supplemental coolant additives (SCAs)\*.

- For use in all heavy duty diesel engines requiring SCAs
- No initial SCA pre-charge required
- Contains nitrites for superior wet sleeve liner cavitation protection.
- Maximum freeze and boil-over protection
- Phosphate-free with low silicates
- Effective, long-term corrosion protection
- High-quality defoamer system
- Compatible with all major American brands of conventional coolants, with and without the addition of SCAs.\*

\* SCA levels will need maintaining throughout the life of the engine. Consult your vehicle's owner's manual for recommendations.

**† WARNING:** These products can expose you to Ethylene Glycol, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65warnings.ca.gov](http://www.P65warnings.ca.gov)
